

The 2500 chamfered represents state-of-the-art in window and door design, embracing modern styles and high quality engineering standards. The chamfered contours integrate easily in all types of architecture and design with a range of colours and finishes that ensure you can find the perfect window for your home.

2500 chamfered

STANDARD SASH

GOLDEN OAK

ROSEWOOD

The beautiful chamfered shape adds a stylish elegance to both windows and doors, inside and out. The 2500 chamfered also takes advantage of the Deceuninck revolutionary new weatherseal, which is a significant step forward in weather proofing technology.

Woodgrain

To give your windows a more natural look, you can take advantage of the beautiful wood grain effect finishes. The 2500 chamfered is available in a choice of Golden Oak and Rosewood.

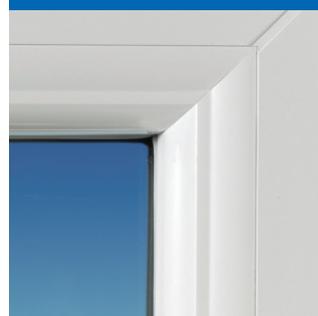

Colour

You can change the look of your home even further by adding a splash of colour with the unique and durable Decoroc surface coating system. You can choose from a wide range of colours.

STANDARD BEAD

CONTEMPORARY BEAD

DECORATIVE BEAD

CHAMFERED BEAD

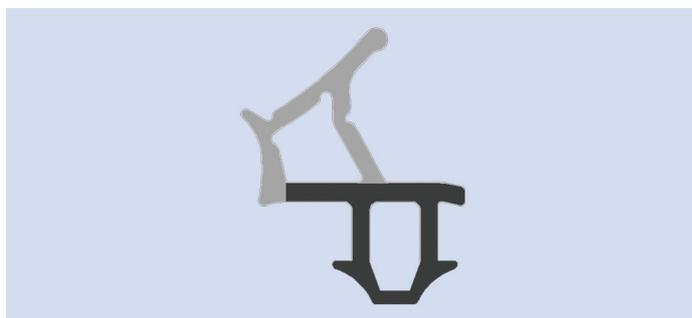

The 2500 chamfered is a revolutionary system from one of the world's leading producers of PVC-U profile systems. Years of research and development have resulted in a window and door system that is both technically advanced with high performance, to improve the comfort of your home.

2500 chamfered

Weather performance

The 2500 chamfered multi-functional weatherseal is at the cutting edge of modern design and material technology. Manufactured from high performance thermoplastic elastomers, the unique design and incorporated features ensure unrivalled weather performance. The new weatherseal is welded at the corners, providing an all-round seal, further improving the insulating properties of the product. This ingenious design enables a significant reduction in the everyday strain placed on the hardware, which in turn increases the lifespan of the window.

2500 chamfered MULTIFUNCTIONAL WEATHERSEAL

Security

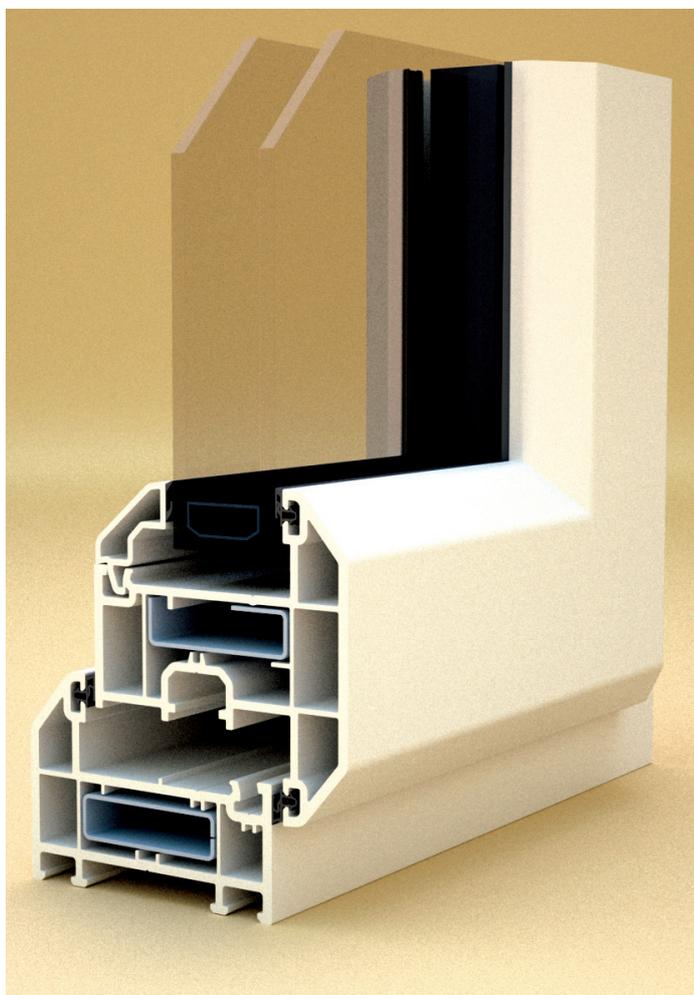

The 2500 chamfered window and door system is fully compatible with all standard security hardware and also has several elements incorporated into its unique design to further enhance security. Every effort has been made to ensure your new windows and doors keep your home secure and the undesirable elements out. The 2500 chamfered has been tested to and has achieved the following accreditations:

- BS 7950:1997 (enhanced security performance, windows)
- PAS 24-1:1999 (enhanced security performance, doors)

Insulation

The 2500 chamfered is designed to comply with all current Building Regulation requirements. The advanced features provide superb insulation and weather performance, as you would expect from one of the world's leading producers of PVC-U window systems. The system has been tested to and has achieved the following accreditations:

- BS 7412:2002 (weather performance for windows)
- BS EN 12567-1:2000 (thermal performance, windows and doors)

CROSS SECTION OF 2500 chamfered WINDOW

Testing to the following kitemark standards are underway. Full certification expected shortly

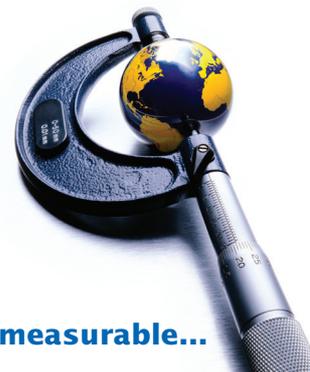

BS 7950:1997

PAS 24-1:1999

BS 7412:2002

our success is measurable...
