

The 2800 decorative presents state-of-the-art in window and door design, embracing modern styles and high quality engineering standards. The sculptured contours integrate easily into all types of architecture and design with a range of colours and finishes that ensure you can find the perfect window for your home.

2800 decorative

The beautiful sculptured shape adds a stylish elegance to both windows and doors, inside and out. The 2800 decorative also takes advantage of the Deceuninck revolutionary new weatherseal, which is a significant step forward in weather proofing technology.

### Woodgrain

To give your windows a more natural look, you can take advantage of the beautiful wood grain effect finishes.

2800 decorative is available in a choice of Golden Oak and Rosewood.

### Colour

You can change the look of your home even further by adding a splash of colour with the unique and durable Decoroc surface coating system.

You can choose from a wide range of colours.

CONTOURED SASH

INTERNAL BEADS

ROSEWOOD

GOLDEN OAK

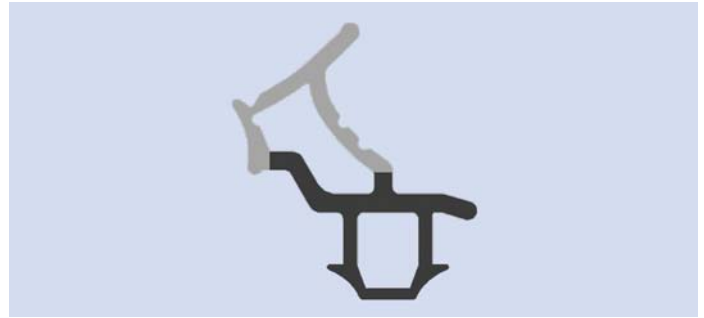

The 2800 decorative is a revolutionary system from one of the world's leading producers of PVC-U profile systems. Years of research and development have resulted in a window and door system that is technically advanced, with high performance to improve the comfort of your home.

## Weather performance

The 2800 decorative multi-functional weatherseal is at the cutting edge of modern design and material technology. Manufactured from high performance thermoplastic elastomers, the unique design and incorporated features ensure unrivalled weather performance. The new weatherseal is welded at the corners, providing an all-round seal, further improving the insulating properties of the product. This ingenious design enables a significant reduction in the everyday strain placed on the hardware, which in turn increases the lifespan of the window.

2800 decorative MULTI-FUNCTIONAL WEATHERSEAL

## Security

The 2800 decorative window and door system is fully compatible with all standard security hardware and also has several elements incorporated into its unique design to further enhance security. Every effort has been made to ensure your new windows and doors keep your home secure and the undesirable elements out. The 2800 decorative has been tested to and has achieved the following accreditations:

BS 7950:1997 (enhanced security performance, windows)

PAS 24-1:1999 (enhanced security performance, doors)

## Insulation

The 2800 decorative is designed to comply with all current Building Regulation requirements. The advanced features provide superb insulation and weather performance, as you would expect from one of the world's leading producers of PVC-U window systems. The system has been tested to and has achieved the following accreditations:

BS 7412:2002 (weather performance for windows)

BS EN 12567-1:2000 (thermal performance, windows and doors)

CROSS SECTION OF 2800 decorative WINDOW

Requirement for reinforcement is dependant on window type and configuration. Deceuninck have had tested and hold the following kitemark licences;

BS 7950:1997  
KM 33904

PAS 24-1:1999  
KM 57124

BS 7412:2002  
KM 25857

our success is measurable...
